RUD SERVICE
TOOL MOVER

CONVEYING AND DRIVING
With RUD's special solutions

BULKOS – THE BULK SOLUTION

No matter whether you deal with complete bucket elevators, chain conveyors or chain drives, RUD will solve your conveying tasks leveraging on its extensive experience with a wide variety of bulk materials such as cement, fertilisers, aggregates & soils and many more.

CRATOS – GIANT ENERGIE FUNCTIONING

As a technology leader, RUD provides components and complete solutions based on round steel and FORKY chains for power generation with coal and biomass, as well as in the field of recycling. No matter whether you are a company specialising in material feeding systems, de-ashing or scraper conveyor systems, RUD CRATOS has the right solution for you.

INDUSTRIAL CHAINS

RUD is the original equipment manufacturer for the world's leading hoist specialists. In addition, we offer a variety of round steel chains for different industries.

TECDOS – TOUGH DRIVES

The RUD TECDOS team develops and manufactures drive solutions for countless applications, from turning, lifting and moving, through to telescoping and pushing. In addition to the component portfolio, complete solutions such as TECDOS Omega and Pi drives are now available.

MINING

RUD Powerblock and Dominator chain connectors are considered the benchmark in the industry worldwide, and thanks to their unmatched reliability, they are used in heavy-duty mining operations.
